

Press Release – ObjectSecurity partners with Model Driven Solutions to provide joint service portfolio

(Cambridge/UK, Vienna, VA/USA – 25 March 2008) – ObjectSecurity, the leading solutions provider for Model Driven Security Management and secure information sharing in mission-critical industries such as air traffic control, today announced that they partner with Model Driven Solutions, a leading provider of professional services and products that leverage Services Oriented Architecture (SOA) and Model Driven Architecture (MDA) techniques and standards. The partnership joins up the complementary products and services of both companies. While both companies work on Service Oriented Architecture (SOA) and Model Driven Architecture (MDA), ObjectSecurity's focus is more security-related, while Model Driven Solution's focus is more business-process related. Both companies are active in standards development organizations such as the OMG and are actively engaged in the Open Source community. Dr. Ulrich Lang, CEO and co-founder of ObjectSecurity says "We are excited to partner with Model Driven Solutions. It helps us to pool complementary capabilities and work together on opportunities related to SOA and MDA."

ABOUT OBJECTSECURITY - ObjectSecurity Ltd. is a Cambridge (United Kingdom) and San Jose (CA, USA) based world-leader in model driven security and authorization management. The company offers the ground-breaking model-driven OpenPMF enterprise security management ecosystem and various secure middleware platforms. ObjectSecurity provides services for model driven security, middleware security, SOA security, secure information sharing (e.g. CDM). Their customer base includes Agilent Technologies, BAA Heathrow Airport, Deutsche Telekom, ESG, European General Electric, Intel, QinetiQ, Royal Bank of Scotland, Real-Time Innovations, Twinsoft/Hewlett-Packard, US Naval Research Lab and others. ObjectSecurity specializes on information security for complex IT environments in mission-critical markets.

ABOUT MODEL DRIVEN SOLUTIONS - Model Driven Solutions (formerly operating as Data Access Technologies, Inc.) is a leading provider of professional services and products that leverage Services Oriented Architecture (SOA) and Model Driven Architecture (MDA) techniques and standards. The company assists major organizations in achieving effectiveness and agility in a changing and collaborative world. Founded in 1996 as Data Access Technologies (DAT) the company has been a leader in the development of open standards and supporting products that result in SOA based Executable Enterprise Architectures (EEA). Model Driven Solutions' EEA focus helps drive information systems to quickly and cost effectively address business and defense initiatives. With customers like the US General Services Administration (GSA), the US Army, Raytheon, Lockheed Martin, Kaiser Permanente, Unisys and many others, Model Driven Solutions is at the leading edge of today's software technology advances.
