

Press Release – ObjectSecurity partners with Fintricity to provide secure SOA solutions

(Cambridge/UK, London/UK – 06 October 2008) – ObjectSecurity, the leading solutions provider for Business Driven Compliance Management and secure information sharing in mission-critical today announced that they signed a partnership agreement with Fintricity Consulting, a firm specializing in providing business driven technology solutions. The partnership joins up the complementary products and solutions of both companies: ObjectSecurity offers the innovative OpenPMF 2.0 business-driven security policy management product and Service Oriented Architecture (SOA) security services. Fintricity's customers benefit from OpenPMF 2.0 policy management because it simplifies the security of their integrated SOA solutions and enables SOA agility without 'security stovepiping' and a maintenance cost explosion. ObjectSecurity's OpenPMF customers benefit from a new value-add service delivery arm. Dr. Ulrich Lang, CEO and co-founder of ObjectSecurity says 'We are pleased to partner with Fintricity. The partnership allows us to offer broader IT solutions that include OpenPMF for security policy management to our customers'. Alpesh Doshi, CEO and Principal Consulting, says 'Security is a fundamental aspect of delivering a comprehensive SOA solution. Most implementation neglect this aspect of SOA and therefore are prone to unsafe and unauthorized access to 'services''.

ABOUT OBJECTSECURITY - ObjectSecurity Ltd. is a Cambridge (United Kingdom) and Palo Alto (CA, USA) based leader for business-driven security (including model driven security management and authorization management). The company offers the ground-breaking model-driven OpenPMF Business Driven Compliance Management product and various secure middleware platforms. ObjectSecurity has been named "Cool Vendor 2008" for OpenPMF 2.0 by Gartner, a leading IT analyst firm. OpenPMF 2.0 is specifically useful for SOA because it supports agility and security of SOA, while avoiding the administrative cost explosion of today's technologies. OpenPMF 2.0 integrates with Business Process Management (BPM) driven SOA and Enterprise Architecture. ObjectSecurity also provides consulting services for SOA security, model driven security, middleware security, secure information sharing (e.g. CDM). Their customer base includes Agilent Technologies, BAA Heathrow Airport, Deutsche Telekom, ESG, European General Electric, Intel, Lufthansa Systems, QinetiQ, Royal Bank of Scotland, Real-Time Innovations, Twinsoft/Hewlett-Packard, US Naval Research Lab and others.

ABOUT FINTRICITY - Fintricity Consulting was formed to be a business driven management and technology consulting firm focused exclusively on Service-Oriented Architecture (SOA) and Enterprise Architecture. We work with business and technology management to identify, model and then deliver solutions to business problems that can leverage SOA. In addition, to deliver rapid return on investment (ROI) in the form of improved operating efficiencies, cost savings, customer service improvement and loyalty.
