

Press Release – ObjectSecurity collaborates with Global Info Intel regulatory compliance / best practices specialist

(Palo Alto, CA, USA, and Boston, MA, USA, 05 January 2009) - ObjectSecurity' today announced a collaboration with Global Info Intel in the area of mapping business-driven compliance requirements (e.g. regulations) traceably. Global Info Intel's broad expertise about compliance regulations and standards, together with ObjectSecurity's leading expertise in model-driven security management, provide a powerful combination to carry out regulatory compliance and best practices projects that traceably extend to the actual IT enforcement.

ABOUT OBJECTSECURITY – ObjectSecurity is a leading specialist for IT security, middleware, information security policy management, and model-driven security. Apart from offering security regulatory compliance services (ISO 27000's/ITILv2, COBIT etc.), ObjectSecurity offers leading-edge consulting and products in the areas of model-driven security, security policy management, Service Oriented Architecture (SOA) security, regulatory compliance management etc. ObjectSecurity's solutions traceably aligns business-led security compliance and concrete IT security enforcement. ObjectSecurity's OpenPMF2.0™ IT security policy management product significantly simplifies security policy management thanks to its innovative model-driven security approach. It reduces cost/effort, aligns business and IT, enables secure IT agility, and enhances security. OpenPMF also includes multi-platform enforcement and monitoring. It offers far better flexibility and manageability than traditional identity management and authorization management solutions. OpenPMF 2.0 has already been included in several other US DoD projects. Other projects include a distributed virtual reality simulation toolkit, and several secure middleware platforms.

ABOUT GLOBAL INFO INTEL – Global Information Intelligence (Global Info Intel) is an informational internet resource that consists of expert intelligence and resources on global information trends led by Dr. Emmanuel Hooper. It is Global Info Intel's mission to provide their readers and clients this cutting edge, money saving resources that will help businesses protect their intellectual property, mitigate risk, achieve cost-effective security, data protection and privacy, comply with global industry regulations, standards, and much more.
