

Press Release – ObjectSecurity partners with PROMIS Solutions

(Palo Alto, CA, USA, and Bonn, Germany, 05 August 2009) – ObjectSecurity today announced a partnership with PROMIS Solutions in the area of security modeling based on TOGAF and EVA Netmodeler. The combination with ObjectSecurity’s unique OpenPMF model-driven security management product and leading expertise in model-driven security allows customers to manage security compliance (risk / control objectives) at the architecture level. ObjectSecurity’s OpenPMF then automatically implements these requirements in technical controls (specifically access control, reporting / monitoring).

Dr. Ulrich Lang, CEO of ObjectSecurity says “we are excited to partner with PROMIS to deliver model-driven security within TOGAF and EVA Netmodeler”. Mike Ater, CEO of PROMIS Solutions AG added “The new partnership shows the broad applicability of EVA Netmodeler and its capability to accelerate governance and business improvement in all kind of environments. We are pleased to partner with the leading expert in model-driven security and their unique product – OpenPMF.”

ABOUT OBJECTSECURITY – ObjectSecurity is a leading specialist for model-driven security, SOA & cloud security, IT security, middleware, and information security policy management. ObjectSecurity’s OpenPMF2.0™ IT security policy management product significantly simplifies security policy management thanks to its innovative model-driven security approach. It reduces cost/effort, aligns business and IT, enables secure IT agility, and enhances security. OpenPMF also includes multi-platform enforcement and monitoring. It offers far better flexibility and manageability than traditional identity management and authorization management solutions. OpenPMF 2.0 has been included in several other US DoD projects. In addition to offering security regulatory compliance services (ISO 27000’s/ITILv2, COBIT etc.), ObjectSecurity also provides leading-edge consulting and products in the areas of model-driven security, security policy management, Service Oriented Architecture (SOA) security, regulatory compliance management etc. ObjectSecurity’s solutions traceably aligns business-led security compliance and concrete IT security enforcement. Other products include a distributed virtual reality simulation toolkit, and several secure middleware platforms. For more information see www.objectsecurity.com.

ABOUT PROMIS SOLUTIONS – PROMIS Solutions is a full-service provider in the area of Enterprise Architecture. Its expertise is based on more than 18 years of experience with large enterprises and government agencies. PROMIS Solutions offers an EA tool: Enterprise Value Architect (EVA) Netmodeler, a totally web based solution with comprehensive Metamodel functionality, a strong repository and flexibility in framework choice which makes it the perfect tool for broad EA initiatives involving different stakeholders – including remote ones. EVA Netmodeler is certified by the Open Group and is used by the Association of Enterprise Architects (a|EA). It is an ideal tool to bridge the gap between business and IT and to gain a comprehensive picture of the entire enterprise as starting point for diverse optimization efforts. PROMIS professional services offers TOGAF certification courses as well as proven workshops, training and consulting. Thus PROMIS combines modeling software, methodologies and consulting to deliver a complete enterprise architecture solution. For more information see www.pro-mis.com or for the US: www.promisus.com.
